Professional Summary

Dedicated professional with over 6 years of experience in warehouse operations, sales management, and web development. I started my career managing warehouse operations and grew into leading a network of 70+ dealers across India, consistently meeting and exceeding sales targets. My Computer Applications degree helps me connect technology with business needs, whether it's improving how warehouses run, building websites that work for customers, or creating brands that stand out. I'm good at turning challenging problems into simple solutions, and I enjoy working with teams to achieve real, measurable results. What sets me apart is my ability to see both the technical side and the business side, making sure everything works together smoothly.

Professional Experience

Sales Manager

Happy Earth Enterprises LLP

2021 – 2025 | Bangalore, India

- Managed and scaled a network of 70+ dealers across India, driving regional sales performance and ensuring alignment with national business objectives
- Collaborated with cross-functional teams (development, marketing, SEO) to create cohesive digital strategies that strengthened brand consistency across all platforms
- Designed and delivered marketing collateral and branding assets, including logo designs, to support dealer operations and regional campaigns
- Integrated sales insights with web design and content strategies to optimize customer acquisition and retention

Warehouse Manager

Happy Earth Enterprises LLP

2017 - 2019 | Bangalore, India

- Led end-to-end warehouse operations, maintaining accountability for inventory accuracy and product security
- Streamlined operational workflows through active collaboration with wider operations team, improving efficiency and reducing discrepancies
- Established strong communication protocols across departments, enhancing cross-functional coordination and supply chain visibility

Warehouse Operations Associate

Happy Earth Enterprises LLLP

2017 | Bangalore, India

- Supported operations team in daily warehouse management and inventory control
- Implemented system and physical inventory reconciliation processes to ensure data accuracy
- Contributed to operational improvements through proactive problem identification and resolution
